MEMORANDUM

Date: DEC 11 1987

Subject: Coosa River Expanded Site Investigation

From: Narinder Kumar, Chief
South Unit
Site Assessment Section
Site Investigation & Support Branch
Waste Management Division

To: M.D. Lair, P.E., Chief
Hazardous Waste Section
Environmental Compliance Branch
Environmental Services Division

NUS Corporation will be conducting an Expanded Site Investigation on the Coosa River in Rome, Georgia for the Site Assessment Section. This investigation will include a study of PCB concentrations in fish collected from the river. The Site Assessment Section requests ESD supply NUS with support for this study.

Please note that the site manager for this project is Felicia Barnett.
